Fivash Cellars Owners and winemakers, Scott and Margaret Fivash, received their introduction to the Washington wine industry by featuring the “Best of Washington Wines” in Washington CEO, a magazine that they owned and operated for more than 15 years. In 2006 they were ready for a life change. Impressed by the quality of wines and winemakers from the Walla Walla Valley, Scott and Margaret sold the magazine and moved to Walla Walla to learn more about the wine business.

While there, Margaret earned an AAAS degree in Enology and Viticulture at Walla Walla Community College Institute for Enology and Viticulture, Scott attended the Wine Executive program at UC Davis, and they both worked at various wineries for three years to gain experience. Now back in Sammamish, they’ve turned their woodshop into a winery and continue to make wine with grapes sourced mostly from Walla Walla.
