Well I'm going to see out the rest of this wintery weather swinging in a hammock on a remote tropical island off the coast of Thailand. Bliss. I plan on joining a yoga session mid morning, then dining on spicy Thai dishes for lunch, followed by lazing away the afternoon under a palm tree, occasionally dipping into the ocean to cool off. Rounding out the day with sundowners and some more delightful cuisine. Sounds like heaven. Tell you all about it in the next addition of VUDA news!

The lovely Heather will be minding all travel enquiries while I'm away - same phone and email. She'll take care of all your travel needs and wants, perhaps sending you to your own tropical paradise....

Right - off to pack my bags!!

Everyone's been asking for India - ask and you shall receive.

New Passport Ready to GO

Your passport is your ticket to the world! Keep it safe and treat it well. And double check it's in your handbag before driving to the airport!

On my way to Sydney recently I realised it would be my last trip with my current passport. Adding a few extra stamps to the pages before I'd have to trade it in. Reminiscing about all the travelling my passport and I have done together. It arrived brand spanking new the DAY before I left for my OE (little bit stressful, but hey). Up to London we went when I was only 18! Then over the years we've been skipping around Europe, on holidays and adventures with my sisters, tropical island holidays with my (very handsome) boyfriend, sailing around Tahiti, escorting awesome VUDA tours... lots of good times. But it's time for an upgrade (passport that is, not boyfriend (he can stay)). Yep I'm gonna get myself one of those new black ritzy ditzzy, electronic chip, Smart Gate operating, bio enhanced job's. And boy am I excited about where that thing will take me. I'm gonna fill that baby up!

You too can have a beautiful new passport; download forms from The [Department of Internal Affairs website](#).

Here's some tips from The Department of Internal Affairs; Before you travel overseas ensure your passport is in good order and is travel fit. If your passport is damaged or not valid you may be denied boarding on to your flight by Border officials. Ensure your passport:

- Has not expired.
- Is not within six months of expiry (many countries require at least six months validity to allow entry).
- Has the necessary visas for your travel destination (Travel VUDA will advise you on this).
- Is not damaged, defaced or excessively worn (any one of these can mean your passport is invalid for travel).
- Is a machine readable passport if you are travelling to or through the USA.
