Barron's Magazine Top 1,000 Advisors in America is chosen based upon a proprietary methodology consisting of three major components: assets under management, revenue generated for their firms, and quality of service and regulatory records. Investment performance is not an explicit factor, because audited performance records are not available. Total assets are all assets overseen by the advisors team, including some that are held at other institutions. The rankings are based on data provided by individual advisors and their firms. Advisor data is confirmed via regulatory databases, cross-checks with securities firms, and conversations with individual advisors. No compensation was received from participating firms or advisors. This ranking is not indicative of the advisor's future performance.
