Number	AS91058	Version	3

Achievement Standard

Subject Re	eference	Construction and Mechanical Technologies 1.21			
Title		Implement basic procedures using textile materials to make a specified product			
Level	1	Credits	6	Assessment	Internal
Subfield	Technology				
Domain	Construction and Mechanical Technologies				
Status		Registered		Status date	20 January 2011
Planned re	eview date	31 Deceml	oer 2018	Date version published	20 November 2014

This achievement standard requires the student to implement basic procedures using textile materials to make a specified textile product.

Achievement Criteria

Achievement	Achievement with Merit	Achievement with Excellence
 Implement basic	 Skilfully implement basic	 Efficiently implement basic
procedures using textile	procedures using textile	procedures using textile
materials to make a	materials to make a	materials to make a
specified product.	specified product.	specified product.

Explanatory Notes

1 This achievement standard is derived from Level 6 of the Technology learning area in *The New Zealand Curriculum*, Learning Media, Ministry of Education, 2007; and is related to the material in the *Teaching and Learning Guide for Technology*, Ministry of Education at <u>http://seniorsecondary.tki.org.nz</u>.

Further information can be found at <u>http://www.technology.tki.org.nz/</u>.

Appropriate reference information is available in *Safety and Technology Education: A Guidance Manual for New Zealand Schools,* Ministry of Education at http://technology.tki.org.nz/Curriculum-support/Safety-and-Technology-Education, and the Health and Safety in Employment Act 1992.

- 2 *Implement basic procedures using textile materials to make a specified product* involves:
 - following a set of techniques to make a product that meets specifications
 - undertaking a range of appropriate tests to demonstrate the final product meets specifications
 - applying techniques that comply with relevant health and safety regulations.

Skilfully implement basic procedures using textile materials to make a specified product involves:

• showing independence and accuracy in the execution of the techniques and tests.

Efficiently implement basic procedures using textile materials to make a specified product involves:

- undertaking techniques and tests in a manner that economises time, effort and materials.
- 3 Specified product refers to a product and its relevant specifications, including material specifications. The specifications must be of sufficient rigour to allow the student to meet the standard. The specifications, material/s and techniques to be used and a step-by-step guide need to be determined prior to the product being made. They may be teacher-given or developed in negotiation with the student.
- 4 *Basic procedures* are those that require the student to perform a sequence of techniques, as instructed, to make a product.
- 5 *Textile materials* in this achievement standard may include but are not limited to natural and synthetic fibres, yarns and fabrics.
- 6 Construction techniques include:
 - one or more of measuring/marking out
 - one or more of sizing/shaping/forming
 - one or more of joining/assembling
 - one or more finishing/detailing.
- 7 Tests may include but are not limited to measurement of tolerances, performance testing, fitting, visual checks.
- 8 Conditions of Assessment related to this achievement standard can be found at <u>http://ncea.tki.org.nz/Resources-for-Internally-Assessed-Achievement-Standards</u>.

Replacement Information

This achievement standard replaced unit standard 6678 and unit standard 6679.

This achievement standard and AS91060 replaced unit standard 6680.

Quality Assurance

- 1 Providers and Industry Training Organisations must have been granted consent to assess by NZQA before they can register credits from assessment against achievement standards.
- 2 Organisations with consent to assess and Industry Training Organisations assessing against achievement standards must engage with the moderation system that applies to those achievement standards.

Consent and Moderation Requirements (CMR) reference 0233
