

Quality Policy Statement

Quality is an integral part of our Corporate Business Principles. These principles guide our actions to develop, manufacture and provide to our clients advanced products and services, that will fully meet or exceed expectations of our consumers and customers. They are essential for the achievement of our ambition to be recognized and trusted as the leading Magnetic Field Measurement and Electric Current Measurement Company.

Our commitment is to never compromise on the compliance and Quality of our products and services. This requires everybody in the company to be engaged, to understand their responsibility in achieving our quality objectives and continuously extend its knowledge.

All of this implies a quality culture that places the focus on the customer and in which 'Continual Improvement' has top priority, as well as continuous investment in development and modernization of technology and intense research and development of new products and services.
