Summit Architectural
Complete plywood and panel solutions

SPECIALIST

HPL Italia Plywood

CHARACTERISTICS

Light Suede finish, this panel has a multiply birch core. Excellent for durable, exposed edge-grain cabinetry. A favourite with joiners, this is strong & has an excellent hard-wearing surface.
With moisture resistant properties, clashing is not needed in many situations. This product is a more cost effective option than the HPL Premium range.

USES

Kitchen Carcasses and Cabinetry,
Wall linings
Office Furniture
Shelving Units and Wardrobe Fit-outs
Architectural Fit-outs

	- Graphite		
	- Double Agent (light grey)		
	- Dubai Sands		
	- Olive Grove		

Surface	0.6 HPL Laminate, light Suede Finish
Origin	Southern Europe
Glue bond	Class 3 exterior (Substrate plywood)
Core	Baltic Birch Multiply
Environmental	Plantation/FSC

HANDLING & APPLICATION INFORMATION

The "Italia" range is not as scratch resistant as the HPL Premium range. It is important to note the this product is a "panel" laminate, and therefore not guaranteed in high wear bench-top or exterior situations. It is the users responsibility to protect the exposed edge grain with a suitable protective finish.
Plywood is a natural product that can be affected by changes in weather conditions: moisture and temperature.Temperature variation may cause internal stresses causing previously flat sheets to bow. Precautions are taken to minimize this effect. However, once the plywood has left our warehouse we cannot guarantee sheets to remain flat unless fastened. This is particularly important where free standing kitchen/cabinet doors are concerned. When storing panels, stack with enough support to prevent sagging. Cover the pallet to protect top and edges.
