INCREASE

More students need more help. The United Way of Greater Atlanta estimates that 500,000 students in the Atlanta Metro area are living areas of low child well being. **Essential2Life** is turning the curve by increasing high school graduation rates, providing access to affordable post-secondary solutions, and creating a system of supportive adult relationships. **We need your help to serve more students, DONATE TODAY!**

IMPACT

Essential2Life is increasing the impact by ending generational poverty, one student at a time. We need your help to: **Empower** students to graduate high school on time, with a plan for post-secondary education. **Ensure** that students have access to Financial literacy, Leadership Skill building, and Career Readiness training. **Educate** students on "NO to LOW" post-secondary education options.
