Instructor/ Coach: Michael Hunt. Director, Hockey Barn – Canada

### About Hockey Barn

The Hockey Barn believes that being a former player doesn't automatically make you a good instructor. Playing at a high level helps but at the end of the day parents and children need to know they have the right teachers and mentors directing them. At The Hockey Barn we understand the importance of not only being a professional player but to have the ability to get down to the level of our players.

We understand that during a clinic or when coaching a team we're dealing with 20-50 different personalities. Each one is special and unique. Hockey Barn coaches have the ability to get on the same level with a player whether he or she is 4 years old or 50 years old.

We have found this to be the best approach, as the kids and players of all ages are much more receptive to encouragement and being talked to as opposed to, down to.
